Task Description (#14) ✕

Registration fields:

- E-mail field: string(e-mail field), max-length of sring; 30 characters, allowed: alphnumeric characters + "_@", editable field, size(widh=25%, height=25%) position(left =30%, top =45%)
- Password: string(password field), max-length of sring; 25 characters, allowed: alphnumeric + special symbols, editable field, size(widh=25%, height=25%) position(left =30%, top =50%)
- Repeat Password: string(password field), max-length of sring; 25 characters, allowed: alphnumeric + special symbols, editable field, size(widh=25%, height=25%) position(left =30%, top =55%)
- Button: label "Sign Up", feedback: goes to the next menu;
- Roles: Boolean data(checkboxes), amount of characters: 2, allowed: Boolean data, editable field, size (widh=50%, height=50%) position(left =25%, top =40%)
- Select group: Boolean data(selector),amount of characters: 1, allowed: Boolean data, editable field(selector), size (widh=15%, height=25%) position(left =30%, top =50%)
- Select student: Boolean data(selector),amount of characters: 1, allowed: Boolean data, editable field(selector), size (widh=25%, height=30%) position(left =30%, top =55%)
- Select teacher: Boolean data(selector),amount of characters: 1, allowed: Boolean data, editable field(selector), size (widh=25%, height=30%) position(left =30%, top =50%)
- Button: label "continue", feedback: add the user to database;
- Button: label "back", feedback: returns to the previous menu;

Login fields:

- E-mail field: string(e-mail field), max-length of sring; 30 characters, allowed: alphnumeric characters + "_@", editable field, size(widh=25%, height=25%) position(left =30%, top =45%)
- Password: string(password field), max-length of sring; 25 characters, allowed: alphnumeric + special symbols, editable field, size(widh=25%, height=25%) position(left =30%, top =50%)
- Button: label "Log In", feedback: authenticate the user to system;
